Clickview videos contain thousands of educational videos linked to TAFE Units of Competency. Most of the videos feature Australian content. The collection is now accessed using the student/staff Portal login.

You can easily link to individual titles in your course materials, or embed videos in online content. **Apps for IOs, Android and Windows are also available for use on mobile devices.**

1. Go to the eVideos page [http://huntertafe.libguides.com/evideos](http://huntertafe.libguides.com/evideos) and select Clickview.
   Login with your TAFE Username and Password to access.

2. Once in the database, select and open the video you require.
   Search by Title, Browse by subject, or go to the Dashboard to find videos aligned to national units of competency.

3. Click on the “Share” tab below the video.

4. Copy the URL in the “Link to this video” box.

5. Users who click on the link will be required to login with their TAFE username and password.
   **Contact library staff for a generic login that will provide access.**

**Embed the video:**
Use the “Embed this video” code with software and applications with this option. Users will be required to login with their TAFE username and password for access.
Clickview Workspace and Interactive Videos

Workspace provides 5GB of cloud space to store any video you want to share with students – including videos recorded on your mobile phone.

Download the Clickview app to your mobile device and use it to record videos, upload and publish.

You can share a link to the video or embed the video as required.

Go to the Help Centre and view the tutorial at:

ClickView Interactive Videos allow you to add questions and additional information to Clickview videos or your own uploaded videos.

The interactive layer allows for self-paced learning and teachers have the ability to view and analyse student analytics.

You can embed as many combinations of 6 interactive objects as you like:

Multiple choice, Short answer, True or False, Annotation, Image and Missing Word

For more information, go to the Help Centre at:
https://www.clickviewsupport.com/hc/en-us/#au

You can view analytics about number of students who viewed the video, number of attempts per student, whether video was completed, time of day completed, student results and student rankings.

Analytics can be exported to Excel.
