**HOW TO ACCESS AND USE FILMS ON DEMAND eVIDEOS**

Available from: https://huntertafe.libguides.com/evideos

Films on Demand is a streaming video platform that makes it easy to incorporate educational video content into your curriculum. The videos are grouped by subject categories, but are also keyword searchable. They can be played in their entirety or in smaller clips called segments. Some of the videos feature Australian content. The collection is accessed with your TAFE username and password.

Once you are logged into the database, you can get links to individual titles or clips, or embed code which will play WITHOUT a login.

**NOTE:** To satisfy licence requirements links and embed code must only be used in a password authenticated environment (eg. Moodle or Learning Bank)

1. Go to http://huntertafe.libguides.com/evideos and click on the Films on Demand link.
2. Log in with TAFE username and password.
3. Search by Keyword, Title or Browse by Subject. The search results include full video titles and segments. **Limit search results** to Full Titles, Segments or Series in the right hand menu.
4. Open the video you require. On the main video screen, the **Record URL** can be used to link to this video.
5. Click on the **Share** tab to get the **Embed Code**.
6. You can also create a **Custom Segment** which will have its’ own URL.

Contact library staff if you require further assistance.
